SADIA MAZHAR

sadiamazhar114@gmail.com   +92-3362392843   Karachi,Pakistan

Statement

As a final-semester Computer Science student specializing in software development, I have a primary focus and expertise in backend development, while also possessing a solid understanding of building frontend interfaces. With a passion for software engineering and AI, I'm eager to contribute my skills in a dynamic, growth-oriented environment. I'm committed to continuous learning and ready to thrive in an innovative, collaborative team.

Professional Experience

July 24 - sept 24 | SAYABIDEVS
Full-stack development, building both frontend and backend components for real-time projects, creating dynamic user interfaces, and designing and managing databases alongside efficient backend APIs.

Feb 24 - April 24 | 360Xpert Solutions
Front-End Developement, creating responsive UIs in React.js using Material UI and Framer Motion, enhancing user interactions with dynamic animations while ensuring cross-browser compatibility and mobile responsiveness. Smooth Integration with backend APIs

Education

Bs Computer Science, UOK (Ubit)
2021-2025 (Final Semester)
Intermediate, St. Lawrence girls college 2019 – 2020
Matriculation, Al-Saqib Public School 2013 – 2018

Skills

- C# , Javascript, Python, SQL, HTML/CSS,
- .Net Frameork, React, Razor,
- Git, Github , Postman
- Web API Development, Auth, Database Implementation
- Logical, Critical, Innovative thinking

Certifications

.Net Full Stack Foundation (Board Infinity)
International Symposium on AI and robotics
Women tech Quest (10 Pearls university)
